THE HOUSE OF AÏA

Strategically situated at the tail end of the most beautiful beach in the Riviera Maya, The House of AïA brings us Palmaia, an exclusive beach enclave focused on connecting us to nature, ourselves, and the sanctity of life.

Every effort was taken to ensure the original landscape remain untouched to feel the healing authenticity of old-growth trees and naturally occurring, cool-water cenotes.

All guests reside in ocean-front suites: some with swim-out access to the infinity pools, others with sweeping views of the sea, and a few nestled among the ocean-side mangroves.

Guests also enjoy high-end amenities without sacrificing environmentally friendly practices, while the restaurants offer the best cuisine in the region, extensive plant-based options, and impeccable style.

But even still, the real jewels are the Architects of Life and Sound programs.

ARCHITECTS OF LIFE

Visiting Gurus, traveling seers, and ancient knowledge form a cradle of wisdom from which we all adopt and learn, as one cannot love nature if one does not love oneself...

Our Architects of Life program is curated and led by our in-house Shaman. It will encompass an array of rituals and practices for everyone to join in and learn; unfolding at different locations and times throughout the week. It is the most comprehensive personal growth program ever offered before at any resort on earth.

We aim to connect to ourselves, to our tribe, and to AiA through deep personal exploration of the physical and the subconscious.

RITUALS OF SOUND

There is something mysterious about feeling beats of music in raw form: they transpose us, they transport us, they set us free, while at the same time grounding us and connecting us to one another. They nourish our hearts with the echoes of ancient rhythms that began in the caves of Africa and the valleys of Mesopotamia.

Every week we curate deep beats to reawaken the sacred DNA of our ancestors with the latest in deep fusion electronic music and visiting guest DJs playing in tandem with acoustic live instruments.
